RECOMMENDATION LETTER FOR *Lauren Huntington*

It is with great pleasure that I recommend Lauren Huntington for employment as a classroom teacher. I have known Lauren for more than three years both as her advisor and her instructor here at Casper College. She is a wonderful human being, thoughtful, caring individual with a great capacity for science and gift for working with children.

Lauren is an excellent student. I find her to be hardworking and determined to learn all she can throughout her college experience. Lauren is a conscientious student that produces quality work. She is always prepared and an enthusiastic participant in discussion and an encourager for other students. Her personal experience, good natured attitude, intellect and gracious spirit are tremendous attributes that make her an excellent student. Lauren is a positive role model for all students.

Mrs. Huntington is a thoughtful student in class. She is well prepared for class discussion and contributes thoughtful insights when appropriate. I recall one particular class discussion in which Lauren asked questions and shared comments that left her fellow classmates reeling and full of interest. This example was not the exception for Lauren Huntington, but rather the rule. She has regularly shared ideas that drive the class discussion to a new, deeper level of evaluation.

A willing attitude, enthusiasm for science and strong commitment to learning are Lauren's strengths. I believe Lauren will prove to be a successful science education teacher and an excellent coworker.

I recommend Lauren Huntington with no reservation and with great confidence. Please contact me for further information.

Sincerely,

Thomas J. DeVogd
Education Faculty
